

ATLANTIC LANGUAGE SCHOOL SHORT STAY

At Atlantic Language School, Galway we have 6 fantastic tuition options for short-stay groups. You can choose a standard General English course, learn about Irish culture or choose from our other project-based programmes. If you are lucky enough to be staying with us for more than one week, you can even do a couple of these courses!

General English

This task-based course allows you to practice all your language skills while improving your grammar, vocabulary and pronunciation. The lessons engage you in a variety of topics and will build your confidence in using English. A classic!

Irish Culture

Discover traditions and customs, as well as folklore, music, language, art, and food. You will also learn about the diversity of modern Irish culture, which is moving away from stereotypes about our vibrant and exciting country.

Design an Ad Campaign

Work collaboratively to create a campaign for a product or brand of your choice. This project-based learning programme will improve your language skills and competences, while you are engaged in group work. Present your campaign at the end and vote for the best one!

Podcasting in English

In this hands-on, project-based course you will collaborate with classmates (in English!) to host your own podcast on a topic that matters to you. Then broadcast to the world! Only available for B2+ students and you need to bring your own device. Ideal for creative types, who want to improve their communication skills.

Legends & Mythology

Explore myths, fairy tales and legends from the Celtic world, and beyond - past and present. You will work with your classmates to create your own modern myth, practicing and improving your English along the way. Don't worry- it's not TOO scary!

Digital Citizenship

Explore the topic of digital citizenship and the idea that the internet is an expansion of society. Lesson topics include netiquette, discussion on whether we should be posting on social media and digital privacy. Not just for geeks!
